

Licensing

At **Woodard Emhardt,** we can help you obtain additional revenue for your business by the licensing or franchising of your various intellectual property assets. We have experience in licensing technology as well as drafting franchise agreements. Through our reporting and analysis capabilities, we can help you quickly identify assets in your portfolio that provide licensing value. We can also assist in locating businesses that may wish to license your technology or trademarks. For companies doing business in Indiana, we have a depth of knowledge in handling the franchise registration process with the state, as well as other franchise-related activities.
